About Us:

Capital i, LLC is a privately-owned technology solutions company founded in 2018. We specialize in enhancing Healthcare Technology through leadership consulting and staffing solutions that support Healthcare Technology Management (HTM), Healthcare Supply Chain Modernization, and Enterprise Business Applications. Our mission is to optimize service delivery and reduce costs by providing experienced and impartial recommendations to our clients.

We extend our expertise into supply chain, HTM, and application services, providing comprehensive strategic planning, expert guidance, and risk mitigation to help organizations optimize their software development and resource allocation. We craft clear, actionable roadmaps that align with your business goals and technology vision while leveraging our industry expertise to navigate complex software development landscapes.

We add value through a balanced approach, combining visionary thinking with continuous process improvement. By aligning our strategies with your organization's goals, we strike the perfect balance between sustainable effectiveness and efficiency—ensuring long-term success through standardization and ongoing refinement of processes.

Core Competencies:

Medical Device Lifecycle Management

Inventory Management

HTM Data Management

HTM Compliance

Supply Chain Management

Strategic Planning

Risk Mitigation

Resource Optimization

Performance Tracking

Enterprise Business Applications
